Proposal to Establish Permanent Enhanced Support Provision – St John Paul II Primary School

From James McParland, Chief Officer (Education South)

E-mail mcparlandjam@northlan.gov.uk

Executive Summary

In November 2025 Education, Children & Families Committee granted permission for the Service to undertake a statutory consultation on five Enhanced Primary Classes.

Furthermore, in March 2026 a report entitled Strengthening Inclusion: Next Steps, was approved by Education, Children and Families Committee. This paper set out six key strategic priorities and how the service will build on initial successes achieved since 2019, which included the approval of further pilot Enhanced Primary Classes.

This report provides an update for Elected Members on the outcome of the statutory consultation process regarding the proposal to permanently establish an Enhanced Support Provision in St John Paul II Primary school in Viewpark.

This report provides:

1. Formal feedback report from His Majesty's Inspectors of Education (HMIE) addressing the educational aspects of the proposal. (Appendix 1)
2. The Service response to the key points raised by His Majesty's Inspectors of Education (HMIE)
3. Clear next steps for this proposal, should final approval to proceed be granted.

Recommendations

It is recommended that the Education, Children and Families Committee:

- (1) Recognises the positive feedback derived from the statutory consultation for a permanent Enhanced Classroom at St John Paul II Primary, from a wider range of stakeholders including parents, carers, staff and pupils.
 - (2) Acknowledge the largely positive findings of His Majesty's Inspectors of Education (HMIE) regarding the St John Paul II Primary Enhanced Classroom proposal.
 - (3) Approves that the pilot Enhanced Classroom at St John Paul II Primary school is approved as a permanent provision effective from August 2026.
-

The Plan for North Lanarkshire

Priority	Support all children and young people to realise their full potential
Ambition statement	(9) Invest in early interventions, positive transitions, and preventative approaches to improve outcomes for children and young people
Programme of Work	Brighter Futures

1. Background

- 1.1 Since 2021, there has been a significant increase in placing requests being submitted for ASN and LCSC provisions, rising from 48 in 2021/22 to 222 in 2024/25.
- 1.2 North Lanarkshire has also experienced a significant rise in pupils identified as having Additional Support Needs, increasing from 31% in 2021 to a current total recorded at 43%.
- 1.3 To address this increase, and to strengthen the mainstream provision of education for pupils, five enhanced provisions were piloted across the council, effective from August 2025 for the whole of the academic session.
- 1.4 As identified in various papers taken to Education, Children and Families Committees, the exponential growth in ASN within North Lanarkshire reflects national trends. The proposed development of a number of Enhanced Primary Classes across clusters aims to improve inclusive practice by enabling pupils with ASN to be educated alongside their peers. The model focuses on early intervention, positive behavioural support, and inclusive, accessible learning environments, in line with legislative duties and the core principles of inclusion.
- 1.5 The development of Enhanced Primary Classes is underpinned by Scottish educational priorities, encompassing inclusion, the realisation of children's rights, and the statutory duties of local authorities. *Education (Additional Support for Learning) (Scotland) Act, The Standards in Scotland's Schools etc. Act 2000, as amended GIRFEC (Scottish Executive, 2006) and the Education (Scotland) Act 2016*.
- 1.6 This approach supports children's rights under the UNCRC (Incorporation) (Scotland) Act 2024 and aligns with national policy and review findings, including the Verity House Agreement, the Morgan Review, and Audit Scotland's ASN report, all of which highlight the need for more effective, sustainable, and well-resourced ASN provision.

2. Report

2.1 Consultation Process

The statutory consultation was carried out under the schools (Consultation) (Scotland) Act 2010.

The consultation opened on 8 December 2025 with the closing date of 9 February 2026. The formal public consultation was held on 19 January 2026 within St John Paul II Primary School with affected stakeholders (staff, parents and pupils). A representative from His Majesty's Inspectorate for Education (HMIE) attended the public consultation meeting.

These meetings were publicised extensively through various media platforms including the NLC webpage. Messages sent included a link directly to NLC consultation webpage to encourage all stakeholders to participate in the process.

2.2 Feedback from parents, staff, pupils, and stakeholders was overwhelmingly positive. (Stakeholder Feedback: Appendix 4)

Key themes across the St John Paul II Primary Enhanced Support Provision consultations are noted below:

- Planned duration of placement P1-7
- Environmental considerations internal/external
- Staffing arrangements / ratios
- Opportunities for working with mainstream peers
- Ongoing provision of resources
- Transition considerations
- Support from the Diocese
- Pilot has strengthened the school community
- Implemented a successful buddy system
- Positive nurturing approach

2.3 Educational Benefits

In the report presented to the Education, Children and Families Committee in November 2025, and during the consultative process, the Service reported on several anticipated and clear educational benefits of this proposal.

In respect of the proposal to establish an enhanced support provision within St John Paul II Primary, the Service believes the benefits to be as follows:

- Enhanced staffing ratios, providing flexibility and enabling personalisation and choice for young people to access their daily routine
- Local provision reduces travel and disruption for families
- Inclusive and welcoming environment to foster effective partnership working and improve outcomes for children, young people and their families
- Improved emotional wellbeing, resulting in positive outcomes, increased attendance and engagement.
- Bespoke resources to support a solution focused approach to meet the individual needs of the young people
- Clearer pathways to mainstream for pupils who can access inclusive opportunities with their peers
- Strengthening whole school practice in pedagogy and learning and teaching to support ASN learners
- Increased opportunities for coaching and mentoring through collaboration with colleagues in the ASN sector

2.4 Summary of response from His Majesty's Inspectorate for Education (HMIE)

In reporting on their evaluation of this proposal in March 2026, HMIE recognised the key potential educational benefits within the proposal including strengthened leadership, transition, learning and teaching practice and integrated planning with partners. HMIE also acknowledged the benefits of appropriately designed spaces for learning, the use of technology and an appropriately personalised curriculum. It was

highlighted in the report from HMIE that the enhanced provision within St John Paul II Primary school will allow children to remain within their local communities and attend school with their local peers.

HMIE made specific recommendations to North Lanarkshire Council as part of their review process, which are to:

- Communicate clearly to stakeholders how the enhanced support provision will meet the needs of all children who require intensive support.
- The Council should clarify its long-term, authority-wide strategy for meeting rising ASN demand across early years, primary, and secondary education.

As per the statutory requirements, the Service has published the full HMIE report for stakeholders to view on the Council website and provided the full report for members in *Appendix 1*.

2.5 Next Steps

If Committee grant the approval for the permanency of the Enhanced Support Provision in St John Paul II Primary School, the next steps will be:

- Service to communicate the outcome of the decision to all stakeholders
- Headteacher to proceed with the permanent recruitment for all affected posts
- Service to review the learning environment and resources within St John Paul II Primary
- Service to continue to communicate clearly with all stakeholders how the enhanced support provision will meet the needs of all children who require intensive support.
- Service to continue to highlight long term strategic approach for meeting rising ASN demand across all sectors.

3. Measures of success

- 3.1 Improved access to high-quality local provision
- 3.2 Strengthened inclusion and transitions
- 3.3 Reduced pressure on specialist ASN placements
- 3.4 More pupils will be educated within their local community
- 3.5 Reduction in ASN transport costs.
- 3.6 The number of placing requests and ASN tribunal references would be reduced.
- 3.7 An increase in staff development and experiences within both the enhanced provision and mainstream setting.
